DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 26-42 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. There is confusing language in the claims. For example in claim 26, how can a blade be irremovably received in the carriage and later exchanged for a new blade? Does "extending from parallel away from" mean that the blade edge is parallel to the adjacent edge of the holder? In claim 29, to what feature does "body side with an opening" refer? This might be misdescriptive or new matter depending on the intended meaning.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 26-28, 34-37, 40-42 are rejected under 35 U.S.C. 103(a) as being unpatentable over Thompson et al. in view of Farland. Thompson shows a scraper with a carriage as claimed. It is pair shape and has a blade edge that is parallel to the handle edge. It does not have two types of plastic as claimed. Farland show that a scraper may be designed with both hard and soft plastic for ease of use. Obviously one of ordinary skill in the art would employ such a design with the device of Thompson for easier use by the operator.

Allowable Subject Matter

Claims 29-33 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 38-39 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

The remarks have been considered but are moot in view of the newly cited art.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
